

MultiTech *Fax Server*

Benefits

- Sends, receives and routes faxes to/from the desktop
- Distributed fax solution for remote offices and field sales people
- Secure, convenient faxing for LAN users

The FaxFinder™ fax server is a turnkey desktop or rackmountable solution that connects to an analog port(s) of a PBX capable of DID to DTMF conversion. It converts faxes to TIFF files allowing you to receive faxes wherever you are as e-mails and send faxes from any application that can print. The solution provides distributed faxing capabilities, over a WAN, from a corporate office to small remote offices as well as to field sales people. In addition, it provides secure, convenient faxing for LAN users offering a high degree of privacy for both the sender and recipient.

Features

- Faxes converted to TIFF files
- Built-in TIFF viewer shows thumbnails, zooms, rotates and flips
- Includes a send fax client compatible with Windows XP, 2000, 2003 and NT (32-bit versions only)
